16. Planned and Emergency Maintenance

16.1 Planned outages may be required for scheduled maintenance and upgrade activities. Onecom will use reasonable endeavours to effect such outages during Planned Maintenance Hours and, where possible, give the Customer at least five Business Days' advance notice of any planned maintenance.

16.2 It may be necessary, from time to time, to carry out emergency maintenance to the Services to maintain appropriate levels of service quality. Onecom will use reasonable endeavours to inform the Customer of the likely disruption period at the earliest opportunity and, where necessary, work with Onecom's carrier partners to discourage maintenance without notification.

16.3 Emergency maintenance shall, wherever possible, take place within the Planned Maintenance Hours and be notified to the Customer as soon as practical. The Customer acknowledges that it may not be possible to provide the Customer with advance notification of emergency maintenance.
